

tesma – online based asset management platform

Established over 24 years ago, tesma is our in-house created asset management platform which enables total transparency and accurate reporting on your CHG leased assets

Full transparency with tesma

Customer data

e.g. cost centers, locations

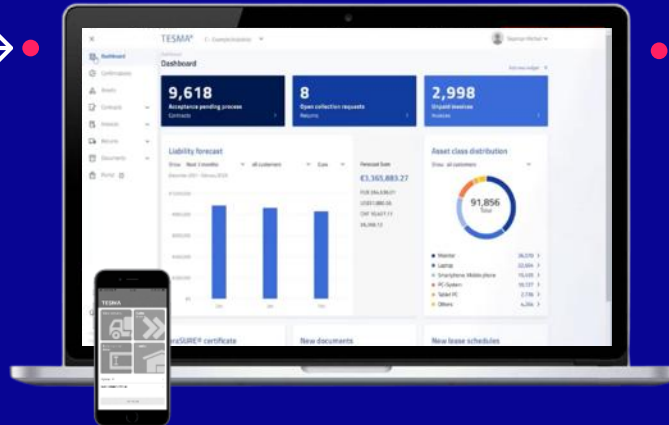

Commercial data

e.g. price per month, lease term

Technical data

e.g. configuration

Full transparency

Commercial and technical

Reporting

Intelligent dashboards and reports

Cost allocation

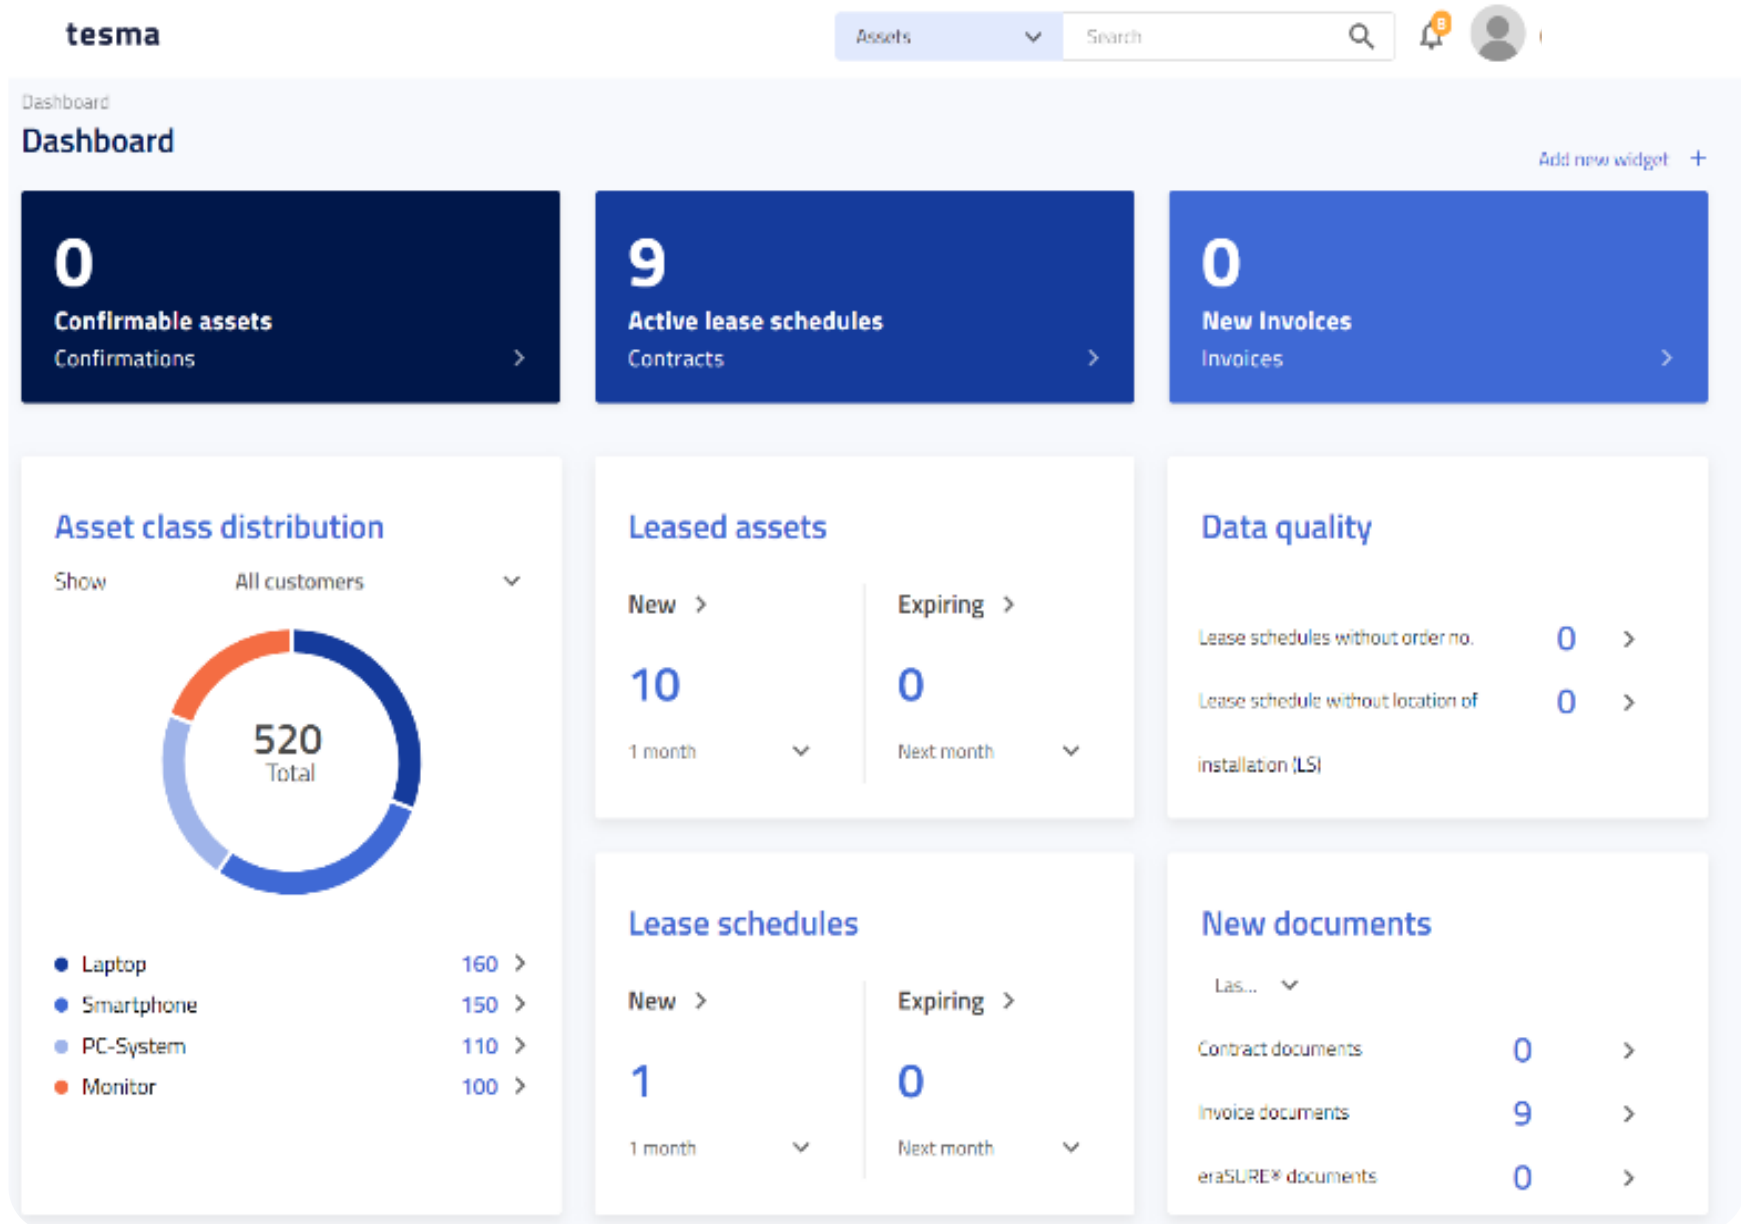

including internationally

Interfaces for easy integration in
third-party systems

Flexible asset management

Using tesma you will benefit from precise financial control and easy reporting.

From planning and rollout to asset return and secure data erasure

Asset overview

Complete transparency on your asset portfolio.

Added value across departments

Digital workflows:

- Simplified approval of assets and lease schedules
- Easier budgeting, consumption planning, and capacity planning
- Easily manage and allocate costs based on where they are incurred, across multiple sites.
