

Sustainable finance for healthcare technologies

Residual value based operational leasing
from CHG-MERIDIAN

How does it work?

- 1** CHG invests in equipment on end user's behalf, with a calculated residual value
- 2** Competitive funding rates are used to meet the end users requirements
- 3** CHG manages the equipment after the lease, allowing end-user to refresh technology

Equipment you can finance*:

Endoscopy

Imaging equipment

Medication management

Laboratory and pathology

Surgical robots

Ophthalmology

Sterilisation

X-Ray

Beds

Other equipment types

**Includes but not limited to the above mentioned asset types. Please contact us for further details.*

How can it help you?

Refresh timeline

Don't get stuck with outdated technology – establish a clear timeline for replacement or refresh

Operational flexibility

Customised leasing models to suit your operational & financial needs

Lower cost of investment

Manage the overall spend on a project investment & free up capital for use elsewhere

Global relationships with the leading MedTech manufacturers
