CERTIFIED DATA ERASURE: CUSTOMIZED, SECURE, EFFICIENT.
PLAN EARLY FOR DATA ERASURE ...

„ISN’T MANAGEMENT BOARD DATA MORE SENSITIVE THAN SALES DATA?“
Plan early for data erasure ...

... TO MAXIMIZE SECURITY AND MINIMIZE COSTS.

Commercial competence and technological expertise are the foundations of the intelligent device recycling and data destruction process from CHG-MERIDIAN. Audit-proof and meeting all compliance requirements, based on established standards and also cost-efficient. In keeping with the CHG-MERIDIAN company claim: 'Efficient Technology Management'.
DIFFERENT LEVELS OF DATA ERASURE CONCEPTS

- Specific data erasure concepts for various data storage media
- Customized erasure processes according to level of security required and data categories
- Mixture of different erasure processes and security standards
- Established norms and standards (DoD, BSI), certified by independent bodies (TÜV/DEKRA)

AUTOMATED AND CERTIFIED

- End-to-end automation ensures great process reliability; no manual input during erasure process; minimized susceptibility to error
- All devices 100 percent traceable
- Asset-specific erasure certificate
- Also suitable for large asset volumes (throughput, speed)

EMBEDDED WITHIN A STRONG SERVICE STRATEGY

- Part of the range of managed desktop solutions (MDS) from CHG-MERIDIAN
- Overall management of all assets as a one-stop solution, strategic and operational
- Customized business concepts covering the entire lifecycle, based on technical and commercial aspects
- Minimized workload, reduction of costs and risks, intelligent controlling for managing desktop devices

LOWER TOTAL COST

- Support in optimizing end-of-life processes with the aim of seamless investment optimization
- Specific data erasure concepts that meet both technical and commercial challenges
- Setting security levels and protection classes that allow for optimized reuse/recycling

MAINTAINS VALUE

- Security, that fits!
SECURITY LEVELS AND PROTECTION CLASSES

The choice of erasure process is always determined by the degree of protection required.

CUSTOMIZED, SECURE, ECONOMICAL

SSD, hybrid or flash memory can be found in laptops, tablets, smartphones and other mobile devices – CHG-MERIDIAN offers precise and economical erasure concepts for various types of data storage media. The choice of erasure process is always determined by the degree of protection required. Every customer receives a customized solution that is tailor-made to their specific devices and data, and which balances security aspects with the aim of realizing the highest possible residual value for the assets.
Comparison of the DEKRA-certified and TÜV-certified erasure process

TWO CERTIFIED ERASURE PROCESSES

There is a choice between two certified erasure processes. Both variants cover every option from the simple deletion of data up to the physical destruction of the data storage medium.

- The data erasure process is TÜV-certified and compliant with BSI-standard basic protection. This process starts with the secure collection of the equipment, includes sealed transport, and ends with server-controlled data erasure in a secure area with biometric access controls.

- The server-controlled data erasure process is DEKRA-certified and complies with Department of Defense (DoD) requirements. This standard does not certify the transport step. It is particularly suitable for data requiring a lower level of protection.

Efficient processes and lower total cost: intelligent concepts from CHG-MERIDIAN deliver added value and benefits throughout the lifecycle of your IT assets.
CHG-MERIDIAN is a globally leading supplier of customized business concepts for efficient technology management. As a financial advisor and technology manager, the company offers maximum relief over the entire technology lifecycle. Customers with investment projects in the IT and telecommunications, industry, and healthcare sectors sustainably benefit from reduced costs and risks, as well as from intelligent controlling to technical and commercial monitoring of their device environment.
