TESMA[®] PORTAL

BECAUSE YOUR EMPLOYEES KNOW BEST WHAT THEY NEED

FOUR ARGUMENTS IN FAVOR OF THE TESMA[®] PORTAL

Quick, convenient, and user-friendly. TESMA[®], the self-service portal for your employees, is all three. Employees can easily get hold of their preferred device, and approval processes, rollout, rollback, and professional data erasure are all automated. And what about the budget? It remains the same and is predictable. Find out for yourself ...

#1

INCREASE YOUR ATTRACTIVENESS AS AN EMPLOYER

Employees select their own IT devices such as smartphones and computers. Conveniently, quickly, and flexibly. You specify the device catalog beforehand.

- End-to-end processing via TESMA® portal
- Straightforward and user-friendly device selection
- Individual upgrades available for a personal surcharge
- Personal use of mobile devices possible
- Budget remains the same and is predictable

SATISFIED EMPLOYEES

#2

NETWORKED AND CONVENIENT

Make it easier for your employees to work remotely with a customized digital workplace.

- Easy remote working. At the office, at home, or while travelling
- Fast exchange if a device is lost or defective
- Delivery direct to the employee (office or home address)
- Easy to raise service requests

SMOOTH REMOTE WORKING

#3

MINIMAL ADMINISTRATIVE EFFORT

TESMA® permanently relieves your IT department of operational and administrative tasks. IT staff are once again free to concentrate on more important matters.

- Seamless, standardized processes for procurement, rollout, and maintenance
- No resources tied up on managing devices (replacement if device defective or lost)
- Fast-track approval and fewer sources of error

REDUCED BURDEN ON THE IT DEPARTMENT

#4

EFFICIENT AND TRANSPARENT

Your employees can see all details relating to the devices they have ordered. And thanks to the integration of technological and financial data, management also has an overview of the key figures: the IT team can view all device data at any time, and the finance department can call up reports on costs and the term of lease agreements at the touch of a button.

- Terms
- Leased assets in circulation
- Device specifications
- Maintenance costs

ALL DEVICES AT A GLANCE

A woman with long dark hair, wearing a light blue blazer, is seated at a desk in a modern office. She is looking down at a laptop, with her hands on the keyboard. The background is a blurred office environment with wooden desks and chairs.
