

# Sustainability in Focus

## CHG-MERIDIAN – Achieving a sustainable IT strategy with circular tech

### Circular Economy as the Foundation of Our Success

For more than 45 years, CHG-MERIDIAN has embraced the principle of "Usage over ownership," combining it with the commitment to actively shape sustainable development. Our circular business model reduces emissions, saves resources, and extends the lifecycle of technology. As a tech financing specialist and technology manager, we support our customers throughout the entire lifecycle of their IT and technology devices – from procurement to

usage and remarketing – efficiently, environmentally, and with a forward-looking approach.

Our **sustainability strategy** is an integral part of our corporate strategy. With clearly defined goals and concrete measures, we pursue a holistic, systematic approach that creates impact—both within our own company and along our entire value chain.

**We do not view sustainability as a one-time goal, but as an ongoing process that encompasses all aspects of sustainable business – economy, ecology, and social responsibility.**

#### Our Milestones:

For Our Customers. For the Environment. For Us.

#### over 1.000.000

devices: In 2024, CHG-MERIDIAN brought over 1 million IT devices into a second lifecycle through remarketing, representing 94% of all IT lease returns.

#### EcoVadis Gold

In 2024, CHG-MERIDIAN was awarded the EcoVadis Gold Medal for the first time.

#### Certified Sustainability

ISO standards for environmental management, business continuity, information security, and personal information management at all European locations, compliance management in the DACH region, and occupational health & safety in Groß-Gerau. Additionally, we are certified for quality management in Italy, Groß-Gerau, and Australia.

#### IT Carbon Footprint

With carbonZERO and the individual IT Carbon Footprint Report, we support our customers in making financial climate contributions and emission reporting – effectively and transparently.
