

TECHNOLOGY AND SERVICE MANAGEMENT SYSTEM

INTELLIGENTLY MANAGING COMPLEX TECHNOLOGY INVESTMENTS WITH TESMA[®]

Efficient Technology Management[®]

THINKING AHEAD: EASY BUDGET PLANNING.

“TESMA® allows me to allocate my financial information to individual assets precisely. That gives me full transparency in my budget planning process.”

A man with grey hair and glasses, wearing a dark suit jacket over a light blue shirt and a blue lanyard, stands in a factory or industrial setting. He is holding a tablet computer. The background is blurred, showing industrial equipment. A white, glowing network of lines and dots is overlaid on the image, extending across the top and sides.

BARRIER-FREE: BROAD INTERFACE PORTFOLIO.

“The integration of financial data into my existing systems is simple and straightforward. Changes to my system are automatically updated in TESMA® via a web service.”

7 Million

ASSETS WORLDWIDE

are currently managed via TESMA®

PERFECT CLARITY:
PRECISE COST
ACCOUNTING.

“TESMA® breaks my invoices down such that every asset is allocated to the right cost center, the right location and the right organizational structure. I can assign individual positions and re-invoice costs with no extra effort.”

360

DEGREE OVERVIEW
of all assets and information.

A+

 RATING

TESMA® has the highest security rating for web servers.

WHAT MAKES TESMA® UNIQUE?

The software links two worlds: the financial world and the technological world. TESMA® collects information like equipment type, features, location, and consumption levels, as well as rental rates, cost centers, financing periods or consumables costs. This opens up new horizons in terms of transparency, budget management and intelligent controlling.

CREATES VALUE IN MANY DEPARTMENTS.

TESMA® gives you transparency to help manage your technology landscape from both technical and financial standpoints. Many departments will benefit from this.

PURCHASING

- What sales revenue did I have and with which suppliers?
- Easy to integrate ERP systems and supplier shops

IT

- How do I link my technical database to my commercial data?
- What's been ordered, what's been installed, what's still in storage?
- How are my service providers performing?

CONTROLLING

- What kind of budget do I need to plan for next year?
- Which expenses were posted to Cost Center 843 this year?
- Create graphic reports in no time at all

ACCOUNTING

- Detailed information on each unit
- Invoices can be processed efficiently and allocated to specific cost centers

LOGISTICS/WAREHOUSING

- Automated capture of serial numbers
- Asset-specific information can be entered as soon as the asset is received

HR

- Seamless tracking of Employer Benefit Solutions (EBS) equipment
- Clear answers to EBS budget questions

TESMA® APP: EFFICIENT MOBILE TRACKING OF ASSETS

The TESMA® app enables you to scan serial numbers automatically and maintain information about, and the status of all assets. This creates transparency about the agreed service levels.

100%

RELIABLE

Manual capture of serial numbers and checking off lists in Excel are a thing of the past.
